**EPA Oversees Soil Removal and Disposal from Everett
Smelter Site
Official Record Available, Public Invited to Comment**

The U.S. Environmental Protection Agency is announcing the availability of the Administrative Record for EPA's oversight of the removal and disposal of contaminated soils from the Everett Smelter site. Contaminated soils are being barged from Everett to the former Asarco Smelter site in Ruston (near Tacoma) for disposal at that facility. The overall cleanup of the Everett site is being done by the Washington State Department of Ecology.

The Administrative Record is the background documentation that supports EPA cleanup decisions. These documents can be found in the information repository listed below. To review the records, please make an appointment with the EPA Records Center by calling 206-553-4494.

We also invite your comments on EPA's action. **A public comment period on these plans will run from Wednesday, September 29 through Thursday, October 28, 2004.** Written comments can be sent to:

Kevin Rochlin, EPA Project Manager
1200 Sixth Avenue, MS/ECL-111
Seattle, WA 98101

Information Repository:
Environmental Protection Agency
1200 Sixth Avenue
Records Center - 7th Floor
Seattle, WA 98101

For more information, please contact Kevin Rochlin, EPA Project Manager at (206) 553-2106 or toll free at 1-800-424-4372, extension 2106.

TTY Users: Please call the Federal Relay Service at 1-800-877-8339 and give the operator Kevin Rochlin's phone number.

Justification

Superfund is being charged for this ad because it is a CERCLA requirement to publish the availability of the Administrative Record in a major local newspaper of general circulation.
